Taking advantage of its expertise in European tax procedures, VIALTIS enables its customers to optimise cash management by means of fastest reimbursement system of their foreign VAT, without having to wait for payment from the tax authorities.

Based in Vratsa, Bulgaria, **Tashev Trans**, which, since 2000, has been handling international road haulage operations across Europe with a fleet of **110 vehicles**, takes full advantage of the VAT recovery system implemented by VIALTIS. *“Our geographic location, close to Romania and Hungary, enables us to fill up our vehicles with **fuel in locations where it is most cost effective**,”* explained Anatoli Tashev, General Manager of Tashev Trans. *“In addition, with a fleet spread across Europe and fuel fill-up points distributed all over the continent, the VAT recovery service provided by VIALTIS constitutes a **major economic plus point** for the company. Three options are proposed for the reimbursement of foreign VAT:

- **Normal VAT service:** recovery within 4 to 7 months, depending on the tax authority.
- **Immediate VAT service:** financing the amounts on a specific date per fiscal period (quarterly, semestrially or yearly).
- **With VAT +:** fortnightly payments on 15th and 30th of each month.

*“Thanks to VIALTIS, our administrative staff **no longer have to deal with complex tasks and procedures** and are better able to **focus** on the organisation of transport and the search for freight.
